

ARAVINDSELVAN C

ASPIRING SOFTWARE DEVELOPER | PYTHON

Chennai, Tamil Nadu | +91 8668147238 | aravindselvan2006@gmail.com

Portfolio | github.com/AravindS2006 | linkedin.com/in/aravindselvan-c

ECE undergraduate graduating in May 2027, with foundations in Python, C, C++, data structures and algorithms. Uses agentic coding tools to create applications and is seeking entry-level software opportunities.

EDUCATION

Sri Sairam Engineering College, Chennai

B.E. Electronics and Communication Engineering | Sep 2023 - May 2027 (expected)

CGPA: 6.95/10

Akshaya Academy, Dindigul | Class XII, Computer Mathematics | 2023 | 86%

TECHNICAL SKILLS

Programming: Python, C, C++

Computer science: Data structures and algorithms, computer networks

Tools: Git, GitHub, Linux, VS Code, Jupyter Notebook

Agentic coding tools: Claude, Google Antigravity, Cursor

Introductory exposure: Machine learning, pandas, scikit-learn

SELECTED PROJECTS

AirTon | Technical Lead | Student research project

- Technical lead for a student team exploring a portable ocular-screening prototype using sensor hardware and machine learning.
- Worked on the machine-learning component using AI tools. The project explores glaucoma screening and remains a research prototype.

Edumate | Student dashboard | [Source](#)

- Created a mobile-first student dashboard using Claude and Google Antigravity to implement attendance, timetable and academic-information views.
- Full-stack code was generated by AI agents, using a Python FastAPI backend and Next.js frontend. These describe the project stack, not independent framework skills.

Ghibli Art Generator | Hosted AI application | [Source](#)

- Used agentic coding tools to create a web application that generates stylized images through hosted Hugging Face models.
- Agent-generated implementation calls FLUX.1-schnell for image generation and uses Gemma 3 for optional reference-image descriptions.

INTERNSHIP

SDR and HAM Radio Intern | CoE in Space Technology

Sri Sairam Engineering College | 15 Jul - 30 Jul 2026

- Learned about software-defined radio and amateur radio during a 15-day internship.

ASSESSMENTS AND LEARNING

HackerRank: [Python \(Basic\)](#), [Problem Solving \(Basic\)](#), [Software Engineer](#) assessments.

MongoDB: [Building RAG Apps Using MongoDB](#) - foundational learning badge, Sep 2026.

INTERESTS

Licensed amateur (HAM) radio operator | Call sign: VU37AE
